EXPERIENCE

App Develper Intern
Pinkmoon Technologies

📅 Oct 2024 – Current   ⚲ Hydrabad, India

- My role is to develop responsive screens in react native from the figma designs and perfectly match the design.
- Along with this my role is to develop the fronted logics and implement the api and manage the state.

PROJECTS

Truecaller app (React Native and node express)

- Developed a Truecaller app using React Native and Kotlin Native Modules for call detection, spam identification, and background task handling with Kill Mode.
- Enhanced app performance with Zustand for state management and Notifee for push notifications.
- Implemented seamless functionality, integrating Node.js and MongoDB for backend services.
- GitHub   Demo Video

Baymax (React Native)

- A Personal Health care companion to measure water intake, reminders, count steps for the day and gemini api for health tips with a speak engine.
- Used tech stack are Zustand for state management ,Firebase Cloud Messaging (Notifee) for sending notification ,Gemini API Integration , Text to Speech Engine.
- GitHub   Demo Video

E-commerce App (React Native and react js)

- Developed visually appealing e-commerce android app and website with React react native and react js , prioritizing user-friendly design and dynamic experience.
- Integrated Zod for form validations, ensuring secure user interactions.
- Implemented responsive design , showcasing full-stack development expertise.
- GitHub   Demo Video

SiteWatch Pro (in developing phase) (MERN)

- A real-time website tracking system for monitoring site uptime incorporating features like cron job and keyword monitoring.
- Implemented domain expiration and SSL certificate tracking to ensure continuous site reliability and security.
- Integrated instant notification via email, WhatsApp, and SMS to alert users of any detected issues or outages.
- GitHub
